

# José María Lozano Olmedo

Software Engineer

---

## ABOUT ME

I'm a Software Engineer recently graduated looking forward to grow, to learn and to improve my knowledges. Hard work, effort, good attitude and commitment are some of my qualities. I'm specialized in Data Science but I also like Fullstack Development. I have learned a lot about Software Engineering at University. In addition, I'm a self-taught person and I have learned by my own other technologies to improve.

---

## TARGETS

I'm looking for a company to continue growing, to improve my abilities and to acquire experience. Moreover, I continue studying a master to complete my knowledge.

---

## EDUCATION

### University of Valladolid

Computer Science degree specialized in Software Engineering  
September 2019 - July 2023

### University of Valladolid

Master in Computer Science  
September 2023 - At the moment

---

## EXPERIENCE

### Indra Minsait

Internship working as Software Engineer  
February 2023 - July 2023

### Indra Minsait

Software Engineer  
July 2023 - At the moment

---

## ABILITIES

I'm specialized in Data Science. I'm interested in Machine Learning and Artificial Intelligence. Most of the abilities that I have in these areas, I have learned by my own. In addition, I have learned much knowledge about Software Engineering at University. I think that a mix between University formation and self-taught knowledge can make me more complete. The technologies that I most use in Data Science are Python, Tensorflow, Keras, R, PowerBI, Tableau, SQL and Spark.

---

## PROJECTS

I have made my portfolio to publish all my projects. Moreover, I have a YouTube channel to publish videos explaining these projects. I invite you to enter my portfolio and review my projects. The link is <https://chemiya.github.io/>
